- Set Reminders
- Upload Order Cart with Excel
- Check Branch Inventory

Advanced/Custom Features

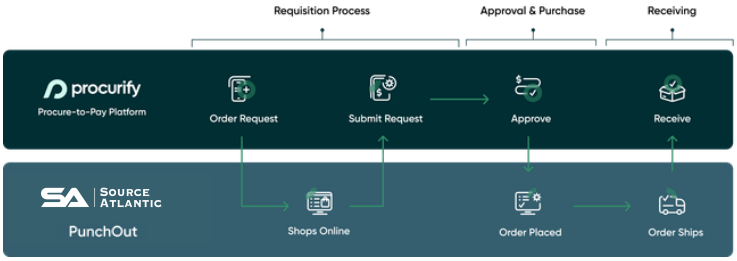

Custom features provide tailored digital solutions designed to address your unique business challenges. Implemented with support from our team, these advanced tools help streamline processes, improve efficiency, and create a more personalized purchasing experience.

- Upload Contracts
- Change User Buyer Levels (Account Access)
- Upload Your Internal Part Numbers
- Create Custom Landing Pages or Interface
- Access Custom Reporting
- Hide Items from Catalogue
- Add Custom Items
- Use the Promotions Tool (Provide Employee Allowances / Boot Program)

ERP Integration

Procurify PunchOut is an integration protocol that connects the Procurify procurement platform directly to our eCommerce website. It lets users browse live catalogs, pull real-time pricing and inventory into an internal order request, and automate purchase orders without separate login credentials. This ERP integration helps streamline ordering and is compatible with any system.
