Count	Description						
1	DME 940-4 AR						
	Product photo could vary from the actual product Product No.: 96529151  Compact positive displacement diaphragm dosing pump, with integrated variable speed motor drive, in an IP 65 plastic enclosure.  The pump is designed for optimum user-friendliness, accuracy and reliability, and is equipped with a logical control panel with one-touch buttons and a multi-language backlight display. The capacity to be dosed in each function is set directly in gal,I, or ml per hour. For enhanced accuracy, the pump can be calibrated to the actual installation by means of a simple calibration function.						
	•The turndown ratio is 1 to 800 w the entire capacity range.	ith the same accura	acy and uniform dosa	ge with reduced pulsation throughout
