

Nitri-Knit™ Nitrile Supported Glove

North Safety Nitri-Knit™ gloves have a unique, textured finish that provides a sure grip on oily, wet or dry objects. The interlock knit liner, combined with the tough nitrile outer layer, resists snags, cuts, abrasion and punctures. 100% nitrile formulation is free of latex proteins which can cause an allergic reaction.

Nitrile coating is resistant to solvents which makes it ideal for use in solvent degreasing operations. Other applications include work with cutting oils, painting and printing operations, food processing-meat, poultry and fish.

Now available from North is the Nitri-Knit shoulder length version which can be used in applications requiring coverage up to shoulders. Elastic at the shoulder prevents the sleeve from sliding down arm. Ideal for dip tank operations, automotive transmission work, and food processing.

Features	Benefits
• 100% Nitrile	• Contains no natural latex proteins.
• Nitrile Coating	• Resistant to petrochemicals, fats, oils, many acids and solvents.
• Interlock knit liner	• Gives glove added strength for resistance to cuts, snags, abrasions and punctures while adding comfort to wearer.
• Unique texture finish	• Provides sure grip on oily, wet or dry objects.
• Complies with USDA and FDA regulations, 21CFR, for use in food processing	• Can be used in contact with food.
• Five (5) hand sizes	• Comfortable fit for a wide range of sizes.
• True dip coated glove	• Permanent bond of nitrile to innerliner. Won't peel apart like glued-in liners.

Ordering Information
