 20/02/04 q1 2400 Series Clear Polyethylene Bags

This is in reference to your letter of 11/13/2003, concerning the aforementioned clear polyethylene bags for which you have requested acceptance for use in federally registered food establishments.

Based on the available information, no objection would be taken to the use of the above clear polyethylene bags for packaging fresh/frozen meat/poultry stored at refrigerated and frozen temperatures.

This acceptance is not to be misconstrued as an endorsement for this or similar clear polyethylene bags, and their use in Registered Establishments will depend upon their continued acceptability to all concerned.

Should any changes occur in the chemical formulation of the aforementioned clear polyethylene bags, then this acceptance will be considered NULL and VOID.

Yours truly,

J.J. Donald

INTEPLAST GROUP®
W. Ralston

Industrial & Institutional Can Liners & Garbage Bags

Inteplast Group W. Ralston operates manufacturing facilities in Eastern and Western Canada serving both the retail and industrial markets. Ralston is a leading manufacturer of Trash Bags, Can Liners, Films and Vapour Barriers with product innovation such as blends of virgin & recycled plastics, antibacterial agents, and certified compostable plastics.

Inteplast Group W. Ralston is committed to ongoing product development in positive support of solid waste management issues.

2100 Series

Compostable

- Certified compostable by BNQ 9011-911 and BPI ASTM D6400

2400 Series

Food Grade

- Clear
- Approved for food contact by Agriculture Canada

2500 Series

Premium Black

- Virgin rich blend of recycled post industrial LLDPE and premium
- Hexene Resin
- The 2500 Series is our thickest line
- EcoLogo™ - Certified CCD-126/UL-126 Garbage Bags

2600 Series

Value Plus - Black

- Economical lighter gauge
- Recycled resin
- EcoLogo™ - Certified CCD-126/UL-126 Garbage Bags

2700 Series

Recycled - Black

- Similar to the 2500 Series
- Lighter gauge with a higher content of recycled resin
- EcoLogo™ - Certified CCD-126/UL-126 Garbage Bags

2800 Series

High Density - Frosted

- Made from quality high molecular weight - high density resin
- These bags have exceptional strength and are ideal for heavy, wet trash
- Packed in mini-rolls

2900 Series

Transparent and Colours

- Made from Hexene resin allowing significant downgauging, while still maintaining superior characteristics
- EcoLogo™ - Certified CCD-126/UL-126 Garbage Bags

Ralston Quality Plastics
100%  CANADIAN

Each Series has its own unique formulation providing the broad spectrum of qualities and economies necessary to satisfy this demanding market.

- Complete range of sizes.
- Available in different colours (2900 Series).
- Outstanding elongation and tear characteristics.
- Custom sizes and colours also available.

User Friendly Cartons!

- Unique one-at-a-time end dispensing cartons allow easy access and ease of stacking.
- All cases have colour coded wrap around labels clearly identifying series, size, count, colour and strength.
- All linear low density series case counts are the same by strength and size.
- Cartons are 70% recycled material with minimum 50% post consumer.
