

#S10LXPB

Technical Improvement: glove color has changed to grey.

Dexterity[®]

10-Gauge Cotton/Poly Knit Glove with Hi-Viz Latex Palm Lined with Punkban[™]

#S10LXPB

Our Dexterity[®] latex-coated gloves combine the seamless comfort of a string-knit glove with a hi-viz lime green puncture-resistant latex coating over a 10-gauge regular cotton/poly string knit. Unique, wrinkle-grip latex, applied to the glove over an ergonomic hand form, delivers excellent wet/dry grip with improved comfort and dexterity. Seamless comfort that is shaped to your hand, combined with a dependable grip, make Dexterity[®] a great choice for a variety of applications.

Punkban[™] offers puncture protection in a woven material. This pioneering breakthrough has been made possible by bringing together innovative, leading edge textile technology to combine spinning and weaving of Kevlar[®] by a unique method pioneered by Superior Glove. The resultant puncture resistant woven fabric is light and supple. Finger tips feature wraparound Punkban[™] protection.

This engineered fabric is incorporated in our exclusive range of gloves that provide incredible puncture protection. **You'll experience dexterity like never before in the new Punkban[™] series of gloves.**

***Please note:** there is no European standard for needle resistance. Current Industry practice is to utilize the American Standard ASTM F2878 as a guide, and to allow comparisons between different products. These products are not needle proof. Your own risk assessment therefore needs to be undertaken to decide the suitability of this product.
