Goat-Grain Driver Cut-Resistant  
Arc Flash Glove

Kevlar®/composite  
filament fiber

#378GKTFG

Goatskin has high tensile strength and abrasion-resistant properties and is often referred to as nature's strongest leather. Soft and lightweight, our white drivers-style, goat-grain leather glove is fully lined with Kevlar® for the added bonus of cut resistance. And unlike other Kevlar®-lined gloves, we've used a cut-and-sewn knit for optimal fit, since seamless string knits are ambidextrous, and as such tend to cause bunching in areas like the thumb. Our cut-and-sewn liner dons much more easily than a seamless knit, since it is tailored to the hand using a much finer-gauge knit than a regular string-knit Kevlar® glove. Because of this high strength-to-weight ratio, our Endura® goatskin all-leather drivers are much tougher and more durable than their suppleness leads you to think. Keystone thumb provides extra durability.

Arc-flash testing placed these gloves at level 3, with a rating of ATPV = 36 cal/cm². Note: these gloves are designed for spark and flame resistance, not thermal contact.

**TESTIMONIAL**

Execution Manager, Suncor Upgrading

"This glove gives us what two gloves gave us before - the dexterity is excellent. The glove allowed for extended usage due to quality and eliminates bulkiness."

1800 grams of cut protection.

### FEATURES

- High tensile strength goatskin provides outstanding abrasion resistance
- Glove is cut-resistant thanks to full Kevlar®/composite filament fiber lining
- Lining is cut and sewn from fine-gauge Kevlar®/composite filament fiber for a no-bunch custom fit
- Keystone thumb for better durability and comfort

### APPLICATIONS

Manufacturing  
Appliance Manufacturing  
Industrial  
Construction  
Forklift or Truck Drivers  
Mining  
Steel Plants  
Material Handling
