Unleash Your Welding Potential

ACCUPOCKET PACKAGE INFORMATION

	Equipment	Description
<input type="checkbox"/>	Stick Package (49-0410-0065)	Package includes: AccuPocket 150 (120 V), ActiveCharger 1000 (120 V), charging cable, face shield, gloves, chipping hammer / wirebrush manual electrode holder 16 mm ² , ground cable 16mm ² , and wheeled hardshell travel case.
<input type="checkbox"/>	Stick + TIG Package (49-0410-0066)	Package includes: AccuPocket 150 (120 V), ActiveCharger 1000 (120 V), charging cable, face shield, gloves, chipping hammer / wirebrush, manual electrode holder 16 mm ² , ground cable 16 mm ² , TIG Torch Gas 1600, and wheeled hardshell travel case.

ACCUPOCKET TECHNICAL DATA

Welding amperage range	Electrode DC TIG DC	10 - 140 A 3 - 150 A
Open-circuit voltage	91V	
Reduced open-circuit voltage (with VRD option only)	12 V	
Marks of conformity	CE / CSA / UL	
Dimensions (L x W x H)	17.1" x 6.3" x 12.2" 43.5 cm x 16 cm x 31 cm	
Weight	24.25 lbs / 10.9 kg	
Welding amperage in hybrid mode (Stick rod - electrode welding)		
40° C (104° F)	25% duty cycle	100 A
40° C (104° F)	100% duty cycle	40 A
Welding amperage in hybrid mode (TIG welding)		
40° C (104° F)	50% duty cycle	100 A
40° C (104° F)	100% duty cycle	65 A

ACTIVE CHARGER 1000

Mains voltage	120 VAC, ±15%
Mains frequency	50 / 60 Hz
Mains fuse protection	max. 20 A
Efficiency	max. 94%
Effective power	max. 1,100 W
Output power	max. 1,000 W

30 MINUTE QUICK CHARGE BUILT-IN LITHIUM ION BATTERY

- Active battery cooling
- Long lifespan
- No memory effect

THREE USAGE MODES

Battery mode: 22 electrodes or up to 124 inches TIG on a single charge

Hybrid mode: 120 V mains can provide full 150 A of output power

Generator mode: Can utilize 2 kVA generators with no power fluctuations

Fronius

***SOUCIE SALO
SAFETY***

FRONIUS ACCUPOCKET 150 **BATTERY STICK OR STICK + TIG WELDER**

WELDING MOBILITY

- No more trucks, generators or extension cables

LIGHTWEIGHT AND PORTABLE

- Only 24.2 lbs (11 kg)
- Carrying strap

RUGGED DESIGN

- High impact resistance
- Integrated dust filter
- Raised feet prevent water penetration
- Designed for rough environments

ACCUBOOST TECHNOLOGY

- Easy ignition
- Superior welding every time regardless of battery charge
- Electrode sticking prevented through software regulation
- Welds all types of electrodes up to 1/8" (3.25mm)

TIG OPTION

- All original features of AccuPocket plus added TIG features including, TAC and Pulse
- Torch operated controls for added flexibility
- 2 and 4 step programming
- Gas is supplied through an integrated gas solenoid valve
